Dear Booz Allen Hamilton Hiring Team,

I am writing to apply for the Computer Vision AI Engineer position at Booz Allen Hamilton. Technology and management consulting company serving government and commercial clients.

In my recent work, Built a visual quality-control workflow that prioritizes likely failures among large-scale segmentation and tracking predictions instead of relying on exhaustive manual review. Built a visual-QC workflow over 1.7M segmentation/tracking predictions; achieved 90.5% test accuracy and 0.764 F1 using out-of-fold evaluation and targeted error analysis. This experience maps directly onto the responsibilities described for the Computer Vision AI Engineer role.

My skill set includes Computer vision, deep learning, Python, and model deployment, each of which is called out explicitly in the Computer Vision AI Engineer requirements at Booz Allen Hamilton.

Relevant skills: Computer vision, deep learning, Python, and model deployment.

Thank you for your time and consideration. I would welcome the opportunity to discuss how I can contribute to Booz Allen Hamilton.

Sincerely,

A very Morgan
