Dear Booz Allen Hamilton Hiring Team,

I am writing to apply for the Generative AI Engineer position at Booz Allen Hamilton. Technology and management consulting company serving government and commercial clients.

In my recent work, Engineered an AI-powered customer relationship management platform to support sales prioritization and customer engagement. Built a visual-QC workflow over 1.7M segmentation/tracking predictions; achieved 90.5% test accuracy and 0.764 F1 using out-of-fold evaluation and targeted error analysis. This experience maps directly onto the responsibilities described for the Generative AI Engineer role.

My skill set includes Python, LLMs, NLP, deep learning, agentic AI, and model deployment, each of which is called out explicitly in the Generative AI Engineer requirements at Booz Allen Hamilton.

Relevant skills: Python, LLMs, NLP, deep learning, agentic AI, and model deployment.

Thank you for your time and consideration. I would welcome the opportunity to discuss how I can contribute to Booz Allen Hamilton.

Sincerely,

A very Morgan
