

AVERY MORGAN

Houston, TX | 713-555-0148 | avery.morgan.ai@example.com | github.com/avery-morgan-ai

Professional Summary

Candidate targeting Generative AI Engineer roles with evidence-backed experience in Python, agentic AI, LLMs, NLP, and deep learning. Engineered an AI-powered customer relationship management platform to support sales prioritization and customer engagement.

Education

Gulfview Technical University

Ph.D. Student, Electrical and Computer Engineering

Houston, TX

2025 – Present

Pacifica Institute of Science

M.S. Data Science (3.64/4.0) | B.S. Math & Computer Science (3.44/4.0)

Houston, TX

2021–2023 | 2017–2021

Experience

Graduate Research Assistant

Gulfview Technical University

Jul. 2025 – Present

Houston, TX

- Highlighted relevant work that built a visual-QC workflow over 1.7M segmentation/tracking predictions; achieved 90.5% test accuracy and 0.764 F1 using out-of-fold evaluation and targeted error analysis.

Senior AI Engineer

Nimbus AI Products

Dec. 2024 – Jun. 2025

Houston, TX

- Applied LLMs and model deployment through work that delivered an AI CRM and no-code LLM chatbot builder using predictive analytics, RAG, FastAPI, WebSocket, Docker, Kubernetes, and AWS SageMaker.

AI & Data Engineer

Meridian Biomedical AI Lab

Apr. 2023 – Nov. 2024

Houston, TX

- Built cardiovascular-imaging and real-time fall-detection models; reached approximately 95% accuracy/F1, optimized embedded inference, and coauthored 2 peer-reviewed publications.

AI & Data Engineer

TalentBridge Technologies

Aug. 2021 – Apr. 2023

Houston, TX

- Built production resume parsing, candidate-job ranking, and policy-chatbot services, reaching 95% parser accuracy and 80% matching success.

Projects

AI CRM Platform

Python, DeepInfra, FastAPI, Docker, Kubernetes, AWS SageMaker

2024-2025

Predictive Analytics

- Engineered an AI-powered customer relationship management platform to support sales prioritization and customer engagement.

No-Code LLM Chatbot Builder

DeepInfra/OpenAI, RAG, AutoGen, crawl4ai, FastAPI, WebSocket

2025

Generative AI

- Converted website content into retrieval-ready knowledge and exposed context-aware assistants through reusable APIs and real-time channels.

Skills

- **AI/ML:** Python, PyTorch, TensorFlow, Scikit-learn, OpenCV, Vision Transformers, EfficientNet, RAG, NLP, PaddleOCR, agentic AI, LLMs, deep learning, model deployment
- **Production:** FastAPI, REST, WebSocket, Docker, Kubernetes, Airflow, MLflow, Git, AWS SageMaker, Google Cloud
- **Data & Languages:** SQL, PostgreSQL, MySQL, MongoDB, Elasticsearch, Neo4j, Pinecone, Supabase, Rust, Java
